FWF Austrian Science Fund (FWF)
Funding Program: Principal Investigator Projects
([PIP \(PROFI mode\)](https://www.fwf.ac.at/PIP) ([fwf.ac.at](https://www.fwf.ac.at)))

National/regional contact point

Name	E-Mail	Phone
Milojka Gindl	milojka.gindl@fwf.ac.at	Tel.: +43 676 83487 8209
Karin Fessler	karin.fessler@fwf.ac.at	Tel.: +43 676 83487 8221

National/regional regulation

Indicative budget	1.000.000 € (2-3 projects)						
Maximum funding per project	450.000 €						
Project duration	Optional: Min. _no limitaion					Max. 36 months	
Project types to be funded:	Exploratory Research					Accelerating Innovation	
	Yes					No	
Topics to be funded:							
Topic 1	Topic 2			Topic 3			
Yes	Yes			Yes			
Exceptions for funding of the research topics based on your national/regional priorities	There are no exceptions according to the topics. However, funding may be only requested for project type "Exploratory Research", as the FWF only funds basic research (see FWF Application Guidelines section 1.2).						
Link to funding programme and other relevant information	Please refer also to the general FWF Funding Guidelines: Application guidelines Principal Investigator Project (PROFI mode) (fwf.ac.at) Application guidelines Principal Investigator Project (PROFI mode) (fwf.ac.at)						
Following partners are eligible for funding:							
Universities	Universities of applied sciences	Research institutes	Non-profit legal entities	SMEs	Large enterprises	Public bodies	Other
Yes	Yes	Yes	No	Yes	No	No	No
Any additional national/regional rules or documents or information:							
All Austrian research institutions are eligible to apply. Research institutions must be registered in the FWF's research institution portal. The proposed research must be carried out in Austria under the auspices of the							

Austrian lead research institution. Applications are submitted by the research institution where the project is to be carried out. Please refer to section 1.3 of the [FWF Application Guidelines](#) for more details.

The principal investigator must be employed at the Austrian research institution applying for funding at the time the project is scheduled to begin. The principal investigator must have appropriate scientific qualifications as described in section 1.4 of the [FWF Application Guidelines](#) and sufficient time resources to carry out the proposed research. Please also consider the [project number limit](#).

No more than two for funding eligible partners from Austria participating in the call will be accepted within one consortium! Please note that Austrian participants cannot participate in a consortium under the widening option at the full proposal stage.

Project-specific costs are eligible for funding. These include personnel and non-personnel costs that are needed to carry out the project and that are not included in the infrastructure provided by the research institution (see section 2.3 of the [FWF Application guidelines](#)). The FWF does not finance the infrastructure or basic equipment of research institutions.

In addition, funding may be requested for project-specific work at the associated research institution(s) where associated research partner(s) work. Associated research partners are researchers working on a project-specific basis at other Austrian research institutions (associated research institutions) and who are making a significant scientific/scholarly contribution to the project. Please refer to section 1.5 of the [FWF Application guidelines](#) for more details.

Costs may not be changed from pre- to full proposal, therefore drafting of the cost justification is already advised at the pre-proposal stage. For further information see the [FWF Application guidelines](#) - section 6.1 Appendix A.

FWF Submission: In addition to the application to the call secretariat, **pre-proposals** must be submitted online to the FWF at <https://elane.fwf.ac.at> via the programme category “PIK – International Projects preproposal”. The deadline for submission is 12 February 2026, 2 pm CET (local time in Vienna) and upload the following documents as individual annexes:

- CV of the applicant at FWF (according to the [FWF Application Guidelines](#) section 2.2.3 – Annex 3).
- Proof of publication output of the FWF principal investigator (according to [FWF Application Guidelines](#) section 2.2.4).

For the **full-proposal stage**, applicants must choose the programme category “KIN – International – Multilateral Initiatives” The deadline for full-proposal submission is 28 July 2026, 2 pm CEST (local time in Vienna)

Both steps are mandatory.

Please note that applications are only valid once they have been approved for submission by the research institution on the submission portal in due time before the specified deadline.

(Please note that it is not necessary to upload the proposal itself as this document is provided to the FWF by the Joint Call Secretariat.)

Fonds de la Recherche Scientifique (F.R.S.-FNRS) Funding Program: PINT-MULTI ([PINT-MULTI regulations](#))

National/ regional contact point

Name	E-Mail	Phone
Ms. Florence QUIST	international@frs-fnrs.be	+32 2 504 9351
Mr. Joël GROENEVELD	international@frs-fnrs.be	+32 2 504 9270

National/ regional regulation

Indicative budget	300.000 €						
Maximum funding per project	300.000 €						
Project duration	Max. 36 months. If the project involves the recruitment of a PhD student, the project duration of the F.R.S.-FNRS sub-project could be up to four years. Since this is a co-financed call, this extra year should not be included in the proposal see PINT-MULTI regulations .						
Project types to be funded:	Exploratory Research	Accelerating Innovation					
	Yes	No					
Topics to be funded:							
Topic 1	Topic 2	Topic 3					
Yes	Yes	Yes					
Exceptions for funding of the research topics based on your national priorities	<p>Please note that personnel costs (Article III.6) have an annual average cap of 80.000 € for this call.</p> <p>For “overhead” costs:</p> <p>Operating expenses: up to 1% within the budget granted. This percentage should be included in the requested operating budget.</p> <p>Personnel: up to 2% outside of the granted budget. This percentage will be paid upon reimbursement of expenses to institutions by the F.R.S.-FNRS.</p> <p>Please check the Practical guide on costs for any other questions.</p>						
Link to funding programme and other relevant information	PINT-MULTI						
Following partners are eligible for funding:							
Universities	Universities of applied sciences	Research institutes	Non-profit legal entities	SMEs	Large enterprises	Public bodies	Other
Yes	Yes	Yes	No	No	No	No	No

Any additional national/regional rules or documents or information:

Applicants to F.R.S.-FNRS funding must provide basic administrative data by submitting an administrative application on [e-space](#) within 5 working days after the general deadline of the FutureFoodS call to be eligible. Please select the “PINT-MULTI” funding instrument when creating the administrative application. Proposals invited to the second stage will be able to complete the pre-proposal form and provide information for the full proposal upon validation by the F.R.S.-FNRS.

The Research Foundation – Flanders (FWO)

National/regional contact point

Name	E-Mail	Phone
Toon Monbaliu	europe@fwo.be	+32 (0)2 550 15 70
Kristien Peeters	europe@fwo.be	+32 (0)2 550 15 95

National/regional regulation

Indicative budget		700.000 €	
Maximum funding per project		350.000 € (overhead included)	
Project duration		Max. 36 months	
Project types to be funded:			
	Exploratory Research	Accelerating Innovation	
	Yes	No	
Topics to be funded:			
Topic 1	Topic 2	Topic 3	
Yes	Yes	Yes	
Eligibility of a partner as a beneficiary institution		<p>The FWO integrates two of its national/regional funding channels within this multilateral framework. The choice of FWO funding channel depends on the <u>type of project</u> the researchers from Flanders wish to undertake (i.e. more fundamental in nature vs. strong valorization potential).</p> <p>The scope and the eligibility of institutions and its researchers can be verified in the relevant chosen funding channel regulations, which can be consulted on the FWO website:</p> <ul style="list-style-type: none">- FWO Research Projects (FO)- Strategic Basic Research (SBO) <p>Or by contacting the FWO contact points mentioned above.</p>	

Eligible Costs	<ul style="list-style-type: none">○ The FWO foresees a budget of 700.000 €, which guarantees at least two projects.○ The respective funding channel regulations apply (see links to national rules above). Both are capped at max. 350.000 € per project/consortium (incl. overhead, for which the calculation method diverges per funding channel - see explanation below).○ For the overhead calculation, the fundamental (FO) and strategic research projects (SBO) use the same approach. A structural overhead rate should be applied on the project costs, with an overhead rate of 6% for 'FO projects', and a 17% overhead rate for 'SBO projects'. Some practical examples:<ul style="list-style-type: none">➤ <i>FO: the sum of all costs (personnel, consumables, travel, subcontracting, etc.) amounts to 200.000 €, then the overhead will amount to 12.000 € (6% of 200.000 €) and the total requested cost is 212.000 €. This total requested cost may never exceed the max. available amount of 350.000 €.</i>➤ <i>SBO: the sum of all costs (personnel, consumables, travel, subcontracting, etc.) amounts to 200.000 €, then the overhead will amount to 34.000 € (17% of 200.000 €) and the total requested cost is 234.000 €. This total requested cost may never exceed the max. available amount of 350.000 €.</i> <p><i>Overhead should be mentioned in the FutureFoods budget table, but it should <u>not</u> be inserted in the national/regional FWO pre-registration form on the FWO E-loket (see below under 'Other Funding Criteria').</i></p>						
Following partners are eligible for funding:							
Universities	Universities of applied sciences	Research institutes	Non-profit legal entities	SMEs	Large enterprises	Public bodies	Other
Yes (restrictions might apply)	Yes (restrictions might apply)	Yes (restrictions might apply)	No	No	No	No	/
Other Funding Criteria							
<p>!! IMPORTANT !!</p> <ul style="list-style-type: none">○ Applicants for FWO funding must submit a mandatory administrative application via the FWO E-loket.<ul style="list-style-type: none">- For fundamental research projects (FO) select the application type: 'Research projects – European programme fundamental research'.- For strategic basis research projects (SBO) select the application type: 'Research projects – European programme strategic basic research'. <p>In case the consortium includes more than one partner requesting funding from FWO, a <u>single online form</u> should be submitted by the main PI (promotor(-spokesperson)) itself, through its personal 'e-loket', containing all relevant information for the different Flemish partners.</p>							

The deadline to submit this administrative application to the FWO is identical to the deadline of the joint transnational call (pre-proposal stage). To ensure the eligibility of the proposal, it is recommended to consult the FWO administration at least one week in advance. Failure to comply with these requirements can lead to ineligibility.

- Participation in this call does not interfere with the ‘regular/national’ project submission framework, and is consequently not taken into account for calculating the max. available number of new applications and running projects combined. **However, researchers can only participate within 2 different international consortia in this call as partner.**
- Projects aiming at the development of a spin-off company are not eligible in this context. This potential ‘route’ should not be mentioned in the FWO pre-registration form.
- The project duration is limited to 36 months, which implies the funding has to be budgeted and spent accordingly. An automatic prolongation and using positive (financial) balances after the end date is not applicable in this framework. As such article 28 of the [FWO Research Projects](#) and article 14 of the [Strategic Basic Research \(SBO\)](#) regulations do not apply here.
- The PI, for each of the participating institutions applying for FWO funds, must hold **an appointment that fully covers the duration of the research project.**

Linked to the above, when it comes to the [FWO research project regulations \(FO\)](#): article 10, §7 is not applicable in this call. I.e. supervisors (-spokespersons), or coordinators/consortium partners in this context, who are granted **emeritus status** during the calendar year of submission of the project application or during the duration of the project execution, are **not eligible**.

- Research teams applying for funding from the FWO may involve ‘stakeholders’ (e.g. city/municipal authorities, interest groups, public and/or private organisations focused on ‘food systems’ in a broad sense, serviceproviders) as subcontractors in a research project, including for non-routine tasks. Contact the FWO for further information.

Additional info

It is **strongly advised** to approach the FWO contact points (‘NCPs’) mentioned above, in order not to jeopardize any research projects/consortia.

		Exploratory Research			Accelerating Innovation		
		Yes			Yes		
Topics to be funded:							
Topic 1		Topic 2			Topic 3		
Yes		Yes			No		
Exceptions for funding of the research topics based on your national priorities			Participants must present an innovative R&D project that has a positive impact on the Walloon economy and is aligned with the priority of strategic innovation area (DIS) of the regional Smart Specialisation Strategy (S3 Wallonia)				
Link to funding programme and other relevant information			https://recherche.wallonie.be/partenariats				
Following partners are eligible for funding:							
Universities	Universiti es of applied sciences	Research institutes	Non-profit legal entities	SMEs	Large enterprises	Public bodies	Other
Yes	Yes	Yes	No	Yes	Yes	No	No

Any additional national/regional rules or documents or information:

- Applicants to SPW funding must submit their pre-proposal on the regional application platform ONTIME. Proposals invited to the second stage must also be submitted on the same platform. The submission deadlines are the same as the general deadline of the FutureFoods call.

Applicants who want to submit a proposal are requested to contact SPW at least 2 weeks before the submission deadline.

- Participants must be companies, universities/higher education institutions, accredited or certified research centers, established in the Walloon Region and conduct R&D activities within the project.
- Walloon partners in the consortium must include at least one company, and the research budget of the Walloon partner companies must account for at least 40% of the total research budget of all Walloon partners.
- Participants must be based in Wallonia, and the Walloon companies must have an operational unit in Wallonia.
- Participants cannot receive any other public funding for the same activities.
- Participants must have fulfilled their obligations under any previous support granted by the Region.
- At the time of submission, companies must not be in difficulty according to the European Union guidelines.
- Projects must focus solely on civilian technologies, products, processes, and services.
- Participants must present an innovative R&D project that has a positive impact on the Walloon economy and aligns with the priority of the regional Smart Specialization Strategy (S3 Wallonia).
- Participants must demonstrate their ability to carry out the tasks assigned to them in the project, to exploit its results, and to have a positive socio-economic and sustainable development impact on Wallonia.
- The project cannot start at a TRL (Technology Readiness Level) lower than 3.

or or project partner	or or project partner/ Yes if industrial engineer (TETRA)	actor or project partner					
-----------------------	---	--------------------------	--	--	--	--	--

Any additional national/regional rules or documents or information:

For the company support (onderzoeksprojecten – ontwikkelingsprojecten) program research institutes, high schools and universities can be part of the Flemish consortium as a project partner or as a subcontractor. They cannot submit a proposal directly.

For the TETRA program high schools and industrial engineering departments of universities can submit a proposal as in the regular TETRA calls.

The Flemish applicants have to submit to Vlaio the following additional documents :

- Cost model for the Flemish part of the project (all Flemish partners)
- “Template annex internationale en interregionale projecten” (company support) or “Template annex Vlaamse bijdrage bij een aanvraag Tetra-Partnerschap” (TETRA)
- International pre-proposal

Required documents : [FutureFoodS](#) | [VLAIO](#)

Applicants who want to submit a proposal are requested to contact VLAIO as soon as the consortium complete.

In order to perform the extended eligibility the national annexes have to be submitted latest 1 week before the international submission deadline.

VLAIO will discuss the annex and the cost model with each applicant after the submission and before the end of the extended eligibility period.

Following partners are eligible for funding:							
Universities	Universities of applied sciences	Research institutes	Non-profit legal entities	SMEs	Large enterprises	Public bodies	Other
Yes	Yes	Yes	Yes	Yes	Yes	Yes	No
Any additional national/regional rules or documents or information:							
<p>MMM uses so called total cost model where funding for research organizations and universities covers 70 % of the project's gross eligible costs. For companies the maximum funding is 50% (please note the EU's state aid rules). Product development supporting individual companies will not be supported, neither machinery or equipment unless they have been specifically approved by ministry. The results of funded projects must be open for access by all potential user groups. Costs that are necessary and reasonable in view of the project work and which can be allocated to the project in accounting are considered acceptable costs. The costs must be incurred during the period of time</p>							

indicated in the funding decision in order to be approved. Costs incurred before the application was submitted will not be approved as project costs.

The responsible administrator of the research/development project must be duly authorised to act for and on behalf of the recipient(s) of the funding in project-related matters as if such actions were carried out by the recipient(s) themselves.

Standard terms and conditions for research, development and innovation activities (RDI) financed by the Ministry of Agriculture and Forestry ([in Finnish](#); [in English](#))

MMM urges all applicants to get in touch with the national contact person already in the early phase of the project planning.

Due to actions undermining or threatening the territorial integrity, sovereignty and independence of Ukraine, the European Union and/or the United Nations have imposed and may in the future impose sanctions in their legislation and/or by decisions of their institutions. The funding recipient must comply with the restrictive measures imposed on Russia and Belarus by the European Union or the United Nations concerning the economy and financing, which are in force in the European Union.

National/regional regulation

Indicative budget		2.000.000 €					
Maximum funding per project		300.000 €, 350.000 € if the Coordinating Partner is requesting funding from ANR and eligible for funding by ANR					
Project duration		Min. 24 months			Max. 36 months		
Project types to be funded:							
		Exploratory Research			Accelerating Innovation		
		Yes			No		
Topics to be funded:							
Topic 1		Topic 2			Topic 3		
Yes		Yes			Yes		
Exceptions for funding of the research topics based on your national/regional priorities		N.A.					
Link to funding programme and other relevant information		ANR's Work Programme 2026 https://anr.fr/en/work-programme-2026/					
Following partners are eligible for funding:							
Universities	Universities of applied sciences	Research institutes	Non-profit legal entities	SMEs	Large enterprises	Public bodies	Other
See details in the section additional national/regional rules							
Any additional national/regional rules or documents or information:							
Funding Commitment:							
The maximum amount that can be requested from ANR <u>by each proposal</u> with French applicant(s) is:							

- 350.000 € if Coordinating Partner is requesting to funding to ANR and eligible for funding by ANR
- 300.000 € (for standard French Partners)

The minimum amount per beneficiary is 15.000 €.

If there are several French partners requesting funds from ANR, the total requested funding from ANR (300.000 €, extended to 350.000 € if the coordinating partner is requesting funding to ANR) must be split among them.

For calculation of overheads, please check the ANR Funding Regulations at actual costs for at: <https://anr.fr/fr/rf/>.

Eligible Institutions:

ANR may fund research organisations and undertakings, as defined by the EC regulation on State aid for research, development and innovation (see the ANR Funding regulations for further reference). Only research organisations that have their primary establishment in France may be funded. As for undertakings, ANR may fund those that have their real head office in an EU member State and an establishment (primary or secondary) in France.

In this call, to be eligible, the consortium must include at least one French public research organization (EPA, EPSCP, EPST, EPIC).

The involvement of an enterprise is encouraged but not mandatory. **If a non-French enterprise is involved in a project and requests funds from a funding organisation other than ANR, it is mandatory to involve a French enterprise; otherwise the French partners requesting funding from ANR will be declared ineligible.**

Companies in difficulty are not eligible to ANR funding.

Partners from countries subject to sanctions applicable to the research field by the European Union authorities are excluded from this call for ANR. ANR will declare Partners requesting its support ineligible if they apply with Partners established in these countries. At the date of publication, these exclusions concern Partners from the following countries and territories: Russia, Belarus, Ukrainian territories out of control of the Ukrainian government.

See more information on the eligibility of institutions on the ANR Funding Regulations at actual costs <https://anr.fr/fr/rf/>.

Additional eligibility criteria:

To be eligible, a proposal must not be deemed similar to another proposal still undergoing evaluation in another ANR call, or already funded.

Depending on the consortium composition, a Consortium Agreement may be mandatory for ANR at the funding stage for successful applications. Please refer to the ANR funding regulations at actual costs for more details: <https://anr.fr/fr/rf/>

In keeping with the **French “PPST” policy** (Protection of the national scientific and technological potential), applicants to ANR should consult their local “FSD” (security and defense officer) regarding their project before applying. Applications to ANR may be forwarded to the HFSD of the French Ministry of research and higher education for screening. A negative appraisal by the HFSD will cause ANR to reject the proposal.

By applying to ANR, ANR funded partners commit to ANR policies under the following headings (see the document “Modalités” for details):

- Access to genetic resources and traditional knowledge associated with genetic resources
- Ethics and scientific Integrity
- Publications and Open Science Policy
- Scientific, Technical and Industrial Culture

- GDPR

Please consult the complete terms and conditions for French Partners on the ANR website for more details (Document “*Modalités pour les Partenaires sollicitant une aide de l’ANR*”). In case of a conflict of interpretation between the terms and conditions stated in this annex and the “*Modalités pour les Partenaires sollicitant une aide de l’ANR*” and the “*Règlement financier*”, the latter shall prevail.

Universities	Universities of applied sciences	Research institutes	Non-profit legal entities	SMEs	Large enterprises	Public bodies	Other
Yes	Yes	Yes	Yes	Yes	Yes	Yes	

Any additional national/regional rules or documents or information:

- German applicants are strongly recommended to contact their National Contact Persons before submitting a proposal and to refer to the National Announcement ([link](#))
- Non-profit organisations have to contact the National Contact Persons to approve eligibility.
- The maximum funding per project is 350.000 € (including overhead).
- BMFTR funding of the 2nd FutureFoodS call is provided as delineated in the national announcement *“FutureFoodS Call 2025: “Förderung der Lebensmittelnachhaltigkeit – durch Ernährungsumstellung in Haushalten, Vertrauen und Transparenz sowie Innovationen in Kreislaufsystemen zur Lebensmittelverarbeitung”* which is published in the Bundesanzeiger ([link](#)).
- German applicants who are eligible to receive “Projektpauschale” must make sure, that this is drawn in the section “Finances” under “Overhead”. Additional explanations are to be added in the section “Comments on finances”. More information is available on: <https://foerderportal.bund.de>.
- Funding bases on §§23 and 44 BHO (“Bundeshaushaltsordnung”) and associated administrative regulations. The main items are as follows:
 - The procedure (“Verfahren”) is according to the above-mentioned protocol (see chapter “Application Procedure” / “Dreistufiges Antragsverfahren”). Funding will be awarded as non-repayable project grant.
 - The funding regulations, the follow up and reporting of publicly funded projects are regulated according to the national announcement *“FutureFoodS Call 2025: “Förderung der Lebensmittelnachhaltigkeit – durch Ernährungsumstellung in Haushalten, Vertrauen und Transparenz sowie Innovationen in Kreislaufsystemen zur Lebensmittelverarbeitung”* and NKBF 2017, NABF and BNBest-mittelbarer Abruf-BMFTR, respectively. Additionally, reporting duties as delineated in this Call Announcement in the Chapter “Project monitoring and reporting” must be respected as well.
 - Research institutions, which receive basic financing, can be funded subject to specific conditions.
 - **Private companies** must be registered in Germany and must be well established in Germany with plants, laboratories, employees, etc. The proposed project must be beneficial to the national economy. In order to prove their financial ability to participate in the proposed project, **Small and Medium Enterprises (SMEs)** have to submit the following documents to the contact person written below together with the electronic submission of the proposals (documents received latest on 11th of February 2026):
 - 1) Financial statements for the last two years (Jahresabschlüsse der letzten zwei Jahre)
 - 2) Confirmation of the financial own contribution (Erklärung zur Aufbringung des Eigenanteils)
 - 3) Business assessment (Aktuelle BWA)

The documents have to be submitted to:
ptj-futurefoods@fz-juelich.de

National Eligibility Criteria <ul style="list-style-type: none"> Grant applications will only be accepted from approved Irish RPOs (see section 4 of the Call Guidelines for Irish Applicants) The grant request by Irish RPOs must not exceed the maximum funding per project as set out above. Address at least one of the scientific areas related to the call scope (as set out in the central Call announcement/documents under the FutureFoodS 2nd Co-funded Call) 							

- Avoid duplication of recent national and international research work already funded or ongoing that incorporates the scope of the scientific topic areas in the FutureFoodS 2nd Co-funded Call.
- Closely align with relevant national policy and foresight documents including but not restricted to Food Vision 2030, IMPACT 2030, Programme for Government, Ag-Climatise, Climate Action Plan 2024, and Sectoral Adaptation Plan for Agriculture, and also align with relevant strategic research and innovation priority areas and agendas.

Applications that do not adhere to these criteria will be deemed ineligible and in such cases the application will not proceed for expert review.

Eligible Funding Partners

Please note: Project partners that are not eligible for funding are encouraged on an in-kind or self-financing basis.

Call Guidelines for Irish Applicants

Please see the 'Call Guidelines for Irish Applicants' located on the DAFM website which sets out in more detail the rules for Irish applicants seeking grant-aid from the FutureFoodS 2nd Co-funded Call and must be read in conjunction with the requirements set out in this National Annex, the Call Announcement document and the Strategic Research and Innovation Agenda (SRIA) of the FutureFoodS Partnership.

Further Information

Applicants should note that the discussions and decision regarding the eligibility of any Irish applicants to the Call or on the final selected projects is taken by DAFM only.

Yes	Yes	Yes	No	No	No	No	Yes (see below: Eligible partners)
Any additional national/regional rules or documents or information:							
<p>The projects submitted within this call will be treated by the Autonomous Province of Bolzano/Bozen as “Joint Projects –International cooperation projects”, as defined in the Decree of the Director of the Department for Innovation, Research, University and Museums of the Autonomous Province of Bolzano/Bozen no. 7599/2024 and will be managed along the “Guidelines regarding eligible expenditures for research projects” as approved by Decree of the Director of the Department for Innovation, Research, University and Museums of the Autonomous Province of Bolzano/Bozen no.15654/2024 .</p> <p>Eligible partners:</p> <p>Partners must be Research and Knowledge Dissemination Organisations based in South Tyrol, as defined in article 2, point 1, letter from a) to f), of the “Criteria for the promotion of scientific research (Provincial Law no. 14/2006)”, as approved by Resolution of the Provincial Council no. 1063 / 2019.</p> <p>The funding rate is 100%.</p> <p>Companies may participate, but cannot be funded, unless their primary activity is research or knowledge dissemination and they are based in South Tyrol.</p> <p>Eligible costs</p> <p>The eligible costs are:</p> <ul style="list-style-type: none"> -personnel costs -travel costs -costs for equipment -consumables -costs for external services (max 30% of the overall admitted budget per partner) -management or indirect costs (max 10% of the overall admitted budget per partner). <p>VAT cost is eligible, if it cannot be deducted.</p> <p>The Guidelines regarding eligible costs for research projects apply (see Decree of the Director of the Department for Innovation, Research, University and Museums of the Autonomous Province of Bolzano/Bozen no.15654/2024).</p> <p>Submission of the pre- and full proposal and other administrative requirements to be completed at the national/regional Level</p> <p><u>1st step:</u> South Tyrolian partners have to provide an additional budget divided into the Joint Project costs categories: the document must be sent per certified email (Pec) to the Office of Scientific Research of the Autonomous Province of Bolzano/Bozen within 10 days after the call-deadline for the submission of the pre-proposals.</p> <p>Shouldn't be possible in this phase to provide details, a more detailed budget should be sent at step 2.</p>							

2nd step: A provisional division of costs per years and activities (Time schedule of the costs "Cronoprogramma delle spese –Zeit-und Kostenplan") must be submitted to the same office within 10 days after the call-deadline for the submission of the full proposals.

An additional detailed budget divided into the Joint Project' costs categories must also be submitted, in case this was not already provided in step 1 or upon request.

In case of purchase of equipment with a value over 5000 € , at least a quotation must be submitted as well.

In case partners from South Tyrol are involved in a project between step 1 and step 2, they must send to the Office of scientific research within 10 days after the call-deadline for the submission of the full proposal:

- an additional detailed budget divided into the Joint Project' costs categories
- a provisional division of costs per years and activities (Time schedule of the costs "Cronoprogramma delle spese –Zeit-und Kostenplan")
- at least a quotation, in case of purchase of equipment with a value over 5.000 €.

Submission of financial and scientific reports at the national/regional level

In addition to the mid-term and final report, a financial and an activity report must be sent to the Office of Scientific Research of the Autonomous Province of Bolzano/Bozen by July 31st, of each year following the year in which the activities have been carried out (e.g. activities carried out in 2026 must be reported by July 31st, 2027). The financial report lists the detailed expenses. The activity report briefly describes the project development and in particular the activities of the South Tyrolian partner that generated those expenses. Please, note: the activity report is neither the mid-term report nor the final report of the call. Concerning the financial and the activity reports, the "Guidelines regarding eligible expenditures for research projects" as approved by Decree of the Director of the Department for Innovation, Research, University and Museums of the Autonomous Province of Bolzano/Bozen no. 15654/ 2024 apply.

Request for funding

In case of a positive funding decision, the South Tyrolian beneficiaries must send a formal "Request for funding" to the Office of Scientific Research of the Autonomous Province of Bolzano/Bozen within 15 days after the notification from partnership.

An updated division of costs per years and activities (Time schedule of the costs "Cronoprogramma delle spese –Zeit-und Kostenplan") must be submitted as well, if significant changes have occurred since the previous submission.

The forms/ templates will be available on the webpage (se EU projects / FutureFoodS call):

<https://innovazione-ricerca.provincia.bz.it/it/ricerca-scientifica-e-universita>

or

<https://innovation-forschung.provinz.bz.it/de/wissenschaftliche-forschung-universitaet>

Please, note: If a beneficiary applies for national funding, he/she cannot request funding to the Autonomous Province of Bozen/Bolzano under this same call.

Terms and Conditions:							

Following specific eligibility rules apply for the Norwegian partners in the proposal. Funding from the RCN is only intended to cover Norwegian parts of the project costs.

Eligibility:

- Norwegian partners from trade and industry sector are eligible for participation. [The state aid rules](#) impose restrictions on such funding.
- Aid may not be granted to undertakings that have not complied with the requirements for repayment following a previous decision by the ESA/EU Commission declaring the aid illegal and incompatible with the internal market. Nor may aid be granted to undertakings in difficulty within the meaning of EEA law.
- Only proposals which also are relevant for the context of **Norwegian circumstances** are eligible for funding. The Norwegian applicants are encouraged to make clear how this criterium is fulfilled.
- **Sole proprietorships ("enkeltpersonforetak")** are eligible as partners. However, payroll and indirect expenses will not be covered for the owner and the spouse. The payroll and indirect expenses for any other employees of sole proprietorships can be covered, as well as expenses relating to participation in a project, provided that they are described in the sole proprietorship's accounts.

Admitted costs:

Norwegian applicants can apply for funding to cover actual costs that are necessary to carry out the project. The detailed and important information regarding the eligible costs is described on the website about [What to enter into the project budget](#).

General information:

- If the project is awarded funding, it is required to sign a Consortium Agreement before the partner(s) funded by RCN can receive funding.
- Project partners of funded projects will have to submit national application forms to RCN after notification. The budget for the Norwegian partners shall follow RCN cost model and RCN regulations. For more information about RCN conditions for funding, please read: [General application requirements](#).
- Reporting to RCN: <https://www.forskningsradet.no/en/financing/received-funding/project-reports/>
- Support from the RCN constitutes state aid when it is awarded to an "undertaking", i.e. an actor that carries out an economic activity consisting of offering products or services on a given market.
- The budget applied for shall be stated in Euro. Conversion from Euro to Norwegian kroner is based on the official **exchange rate** per application date for preproposals. The official exchange rate can be found here: [Exchange rate \(InforEuro\) \(europa.eu\)](#)

Any other information:

- Once the pre-proposal applications have been received, the RCN will first check that all preliminary and formal requirements have been met.
- Applications that do not satisfy the formal requirements will be rejected.
- Depending on the volume of submitted and eligible projects, up to 25 % additional funding may be allocated to the call to fund additional projects on the ranking list.

Maximum funding per project		Detailed below	
Project duration		Min. 24 months	Max. 36 months (preferably)
Project types to be funded:			
		Exploratory Research	Accelerating Innovation
		Yes	Yes
Topics to be funded:			
Topic 1		Topic 2	Topic 3
Yes		Yes	Yes
Exceptions for funding of the research topics based on your national/regional priorities		R&I activities are eligible. Mere dissemination, communication or other similar work packages for the whole consortium will not be eligible unless they are supporting the research activities of the Spanish partner.	
Link to funding programme and other relevant information		As a reference, the applicants are strongly advised to read the call text of the PCI 2025-2 and especially the PCI Requirements document on the national call website as well as check their eligibility with the National Contact Point prior to the submission.	
Following partners are eligible for funding:			

Universities	Universities of applied sciences	Research institutes	Non-profit legal entities	SMEs	Large enterprises	Public bodies	Other
Yes	Yes	Yes	Read conditions	No	No	Read conditions	Read conditions

Any additional national/regional rules or documents or information:

Eligible entities

Non-profit research organizations (such as universities, public research institutions, technological centres and other private non-profit institutions performing RDI activities in Spain), which must comply with the requirements established by this transnational call and with the rules on eligibility defined in the corresponding Spanish national funding instrument "[Proyectos de Colaboración Internacional - PCI](#)" (see [PCI 2025-2](#) as an example) and the [PCI Requirements document](#).

The entities must have been previously beneficiaries of any of the AEI calls.

Eligible Applicants

Principal Investigators (PIs) requesting funding to the AEI must:

- Be eligible in the corresponding PCI call and the PCI Requirements document.
- Demonstrate experience as investigators in projects funded by the different Plan Estatal I+D+i: from 2013-2016, ERC Grants, European Framework Programmes or other relevant national or international programmes.

Incompatibilities: The following must be considered when participating in different ERA-Nets, European Co-funded Partnerships (in particular Agroecology, ERA4Health, PRIMA and AH&CS) or other international initiatives:

- PIs will not be eligible for funding if they apply (i) in more than one proposal in this transnational joint call, (ii) in more than one proposal in the same PCI call and/or (iii) in PCI calls of consecutive years. **This means that the same PI may not apply in two or more international calls funded with PCI that are open simultaneously, neither can they be awarded PCI grants in two consecutive years.**
- If the same PI submits two or more proposals in this transnational call, they will all be declared ineligible except one, without the possibility of changing the PI.
- A PI that has been granted a PCI the previous year will be declared ineligible, without the possibility of changing the PI.
- Changes of the PI between the 2 steps of the transnational call are not allowed
- PI must remain unchanged between the proposal in this transnational call and the corresponding PCI call should the proposal be recommended for funding.
- PI must ensure contractual relationship with the Principal Investigator (PI) during all the implementation of the project.

Important: In the application form, the applicants should include the PI's full name (with both surnames) and the full name of their institution as stated in [the Sistema de Entidades \(SISEN\)](#).

Eligible Costs

- Research and innovation activities are eligible. Mere dissemination, communication or other similar activities will not be eligible unless they are supporting the research activities.
- Only personnel costs for contracts dedicated to the project are eligible. This must be clearly stated in the contract. Please consult [PCI2025-2 \(art.8 Personal\)](#)

The costs of permanent staff linked to the beneficiary entity or members of the research team will not be considered eligible costs.

Direct costs such as current costs, small scientific equipment, disposable materials, travelling expenses, coordination costs and other costs that can be justified as necessary to carry out the proposed activities.

- Indirect costs (25% of all direct costs, including the subcontracting costs).
- **Minor changes of the budget** might be accepted between the pre-proposal stage and the full proposal stage, provided that the maximum requested amount does not exceed the maximum funding per project allowed. A request of change must be submitted to the AEI at least two weeks before the deadline for submitting full proposals.
- The AEI will avoid double funding (overlapping with other EU or National funding) and will not grant projects or parts of projects already funded.

Funding

- Maximum funding committed by the AEI in the Future Foods call 2025: 1.000.000€

•Maximum funding for a 36 months project:

The following **funding limits** (including direct + 25% indirect costs) **are** considered eligibility criteria. Proposals not respecting these limits could be declared ineligible.

Maximum funding per project	DC* (€)	IC* (25%) (€)	TOTAL (€)
One AEI applicant in the proposal	140.000	35.000	175.000
One AEI applicant in the proposal acting as Coordinator	220.000	55.000	275.000
Two AEI applicants in the proposal with one of them acting as Coordinator	260.000	65.000	325.000
Additional funding for substantial experimental tasks (per project)	30.000	7.500	37.500

* The direct costs must be rounded to the thousands in the application.

*Indirect costs are 25% of direct costs requested.

Important:

- As a general rule, only ONE applicant applying for funding to AEI is allowed per proposal
- Two AEI-applicants are allowed in the same proposal only if one of them is acting as Coordinator

Other Funding Criteria

- Centres formed by different Spanish legal entities will be considered as a unique entity, and thus the maximum funding should not exceed the limits per proposal established above (for example, mixed centres).
- Two centres or institutions belonging to the *Consejo Superior de Investigaciones Científicas* (CSIC) will be treated as two separate partners one from another when one of them is acting as Coordinator of the proposal and their tasks and identity in the project are sufficiently separated and justified.
- Although private enterprises are not funded by the AEI, the Spanish industrial sector is welcome to participate in the transnational consortia principally obtaining funds from the CDTI participating in this transnational call (see CDTI's requirements), from other innovation and technological development funding agencies, or using own funds.

The final funding will take into account the transnational evaluation of the collaborative proposal, the scientific quality of the Spanish group, the added value of the international collaboration, the participation of the industrial sector, and the financial resources available.

- Only excellent proposals with exclusively RDI activities will be funded by the AEI. Entire communication work packages, without research associated, are not eligible costs for AEI.

Submission of proposals at the AEI IMPORTANT and NEW!

Shortly after the pre-proposal submission, the Spanish PI will be requested to submit a proposal to the AEI. The PI will include a copy of the international joint pre-proposal, and the [“Declaración responsable del investigador principal”](#) duly signed by the Spanish PI.

The applicants will receive a direct link for the submission tool after the Future Foods pre-proposal stage is finished.

Relevant information and documents

Funding Programme:

The framework for this funding action is the [Plan Estatal de Investigación Científica, Técnica e Innovación 2024-2027](#). On a national level, the Call will be managed by the [Subdivisión de Programas Científico-Técnicos Transversales, Fortalecimiento y Excelencia \(STRAN\)](#) of the AEI.

Funding Instrument:

The instrument funding the Spanish groups requesting funding to the AEI is the corresponding Spanish national call “Proyectos de Colaboración Internacional” (PCI) (to be published in due time).

Data Protection:

By submitting a grant application to the AEI, the applicants consent to communication of the data contained in the application to other public administrations, with the aim of further processing of the data for historical, statistical or scientific purposes, within the framework of the Organic Law 3/2018, of December 5, on Personal Data Protection and Guarantee of Digital Rights.

Acknowledgement:

Important: Any publication or dissemination activity, including webs, communications, information sessions, etc, resulting from the granted projects must acknowledge funding by the “Agencia Estatal de Investigación” according to AEI’s web [guidelines](#).

Beneficiaries are obliged by these requirements and those of the international call.

Universities	Universities of applied sciences	Research institutes	Non-profit legal entities	SMEs	Large enterprises	Public bodies	Other
No	No	No	No	Yes	Yes	No	
Any additional national/regional rules or documents or information:							
Entities eligible for funding: Companies (large and SME) with tax residence or permanent establishment in Spain.							
National requirement: Submission of the (pre)proposal at the national level is needed.							

Each Spanish company participating in a project and requesting funding from CDTI, must apply via [CDTI's electronic submission system](#).

Deadline to complete CDTI's application process: .../02/2026. Please note that failing to comply with the national application process by the deadline, will deem the company ineligible to participate in the call, and, as a consequence, the whole project will be deemed ineligible.

CDTI's application process consists of completing an online application form (PAR application form) which is accompanied by a short technical report written in Spanish. The report must focus on the activities (and associated budget) that Spanish the company will assume in the project.

Applicants are strongly advised to check the detailed information available on CDTI website and to contact the NCP for advice about national funding rules, before submitting a proposal.

Activities eligible for funding:

- CDTI will only fund technology-based activities **within industrial research and/or experimental development** projects (in accordance with the definitions of the General Block Exemption Regulation ([EC Regulation nº651/2014](#)) representing outstanding scientific-technical quality and high innovative potential.
- The activities and tasks related to communication, dissemination, preparation for entry into the market (market acceptance, market potential analysis, business models), commercialisation, industrial-scale trials, and registration of industrial property are not eligible for funding.
- **R&D activities to be funded must be within the TRL 4-7 range and be implemented in Spain.**
- Spanish applicant's activities must be carried out in Spain and represent a high scientific-technical quality and a relevant innovative nature.

Funding:

- Funding will be implemented in the modality of grants. CDTI's funding is subject to final availability.
- Funding rates will be as follows:

Type of entity	Max. % of total budget fundable*
Large enterprise	40%
Medium enterprise	50%
Small enterprise	60%

*Note: If there is national budget available, the grant could be increased to up to 70% for all companies.

Budget of the project and admitted costs:

- No maximum nor minimum budget per project. Recommendation: not less than 200.000€.
- Projects should support transnational collaboration; therefore, no single participant or country can exceed 70% of the total project costs.

Admitted costs:

- Costs of the personnel performing R&D tasks, including up to 58 hours per month for project management.

- Overheads (up to 25% of all direct cost, excluding subcontracting and travel expenses).
- Instruments, equipment, materials, supplies and similar products incurred directly as a result of the project (to the extent that they are used and for the duration of the project).
- Contractual research, knowledge and patents.
- Subcontracting a consultancy firm (up to 8.000€).
- Subcontracting costs cannot exceed 50% of the participant eligible costs.
- Travel expenses (up to 8.000€).
- Audit reports (up to 2.000€ per financial year).

Other operating expenses are not eligible for funding.

Only the costs incurred during the project duration (since the project start date to the project end date) are eligible for funding.

Please note that failing to comply with the national application process by the deadline, will deem the company ineligible to participate in the call.

Indicative budget		150.000€
Anticipated number of projects to be funded		Expected: 1-2 projects.
Maximum funding per project		Maximum: 150.000€ per partner and per project.
Project duration		Max. 36 months
Project types to be funded:		
	Exploratory Research	Accelerating Innovation
	Yes	Yes
Topics to be funded:		
Topic 1	Topic 2	Topic 3
Yes	Yes	Yes
Exceptions for funding of the research topics based on your regional priorities		All topics of FFS are eligible
Link to funding programme and other relevant information		Pending
Following partners are eligible for funding:		
Eligible organisations must be non-profit, not engaged in economic activity entities, with research and innovation activity, such as: University of Oviedo Public or Private Research and Technology Organisations located in Asturias		
Any additional regional rules or documents or information:		
Other eligibility criteria The eligible project budget per partner must be at least of 100.000€; Recommended: 125.000€ The contribution of the regional partner to the proposal must be an R&D project.		

Regional funding applications must be submitted following SEKUENS-FICYT instructions. The project will not start before the submission of the application at regional level. Only actions to be carried out by applicants located in the Principality of Asturias will be eligible for funding. Beneficiaries will be required to submit final financial and scientific reports to SEKUENS-FICYT at the regional level. The projects granted by SEKUENS must be aligned with at least one research area of those described in the Smart Specialization Strategy of Asturias (S3).

Eligible costs

The following costs are eligible:

Costs directly related to the project:

Personnel costs: new researchers and/or technicians hired for the project. Salaries, employer Social Security contributions, legally established compensation and other duly justified expenses

In the event of coordination of the proposal, additional staff cost of up to 7% of the eligible budget, for consortium and proposal management activities.

Costs of materials and supplies.

Costs of contractual research, knowledge, patents and consultancy services. Subcontracting costs up to 50% of the eligible budget.

Other direct costs: Duly justified and necessary for carrying out the project, such as:

Auditing costs

Travel, accommodation and subsistence. Exclusively for members of the research group or project-hired staff. According to applicable regional regulations up to 8.000€

Registration fees for congresses or conferences related to the presentation and dissemination of project results

Indirect costs: Up to 15% of eligible personnel costs

Other information

Applicants are encouraged to contact SEKUENS-FICYT prior to submission in order to receive instructions for the submission at the regional level.

Applicants will be required to submit preliminary information in advance to SEKUENS-FICYT in order to verify eligibility at all stages of the procedure.

Beneficiaries will be required to submit final financial and scientific reports to SEKUENS-FICYT at the regional level.

Applicants are limited to submitting 1 proposal per principal investigator.

The indicative call budget could be increased by the same amount, provided that surplus funds are available from other SEKUENS calls for similar purposes when the decision is made.

b) Funding rates

Maximum funding percentages: 100%

Swedish Research Council for Sustainable Development (Formas)
Funding Program: FutureFoodS

National/regional contact point

Following partners are eligible for funding:							
Universities	Universities of applied sciences	Research institutes	Non-profit legal entities	SMEs	Large enterprises	Public bodies	Other
Yes	Yes	Yes	No	No	No	No	
Any additional national/regional rules or documents or information:							

Eligible organisations

Only universities, technical colleges and research institutes are eligible to receive funding from Swedish Funders for this call. The grants paid out by Swedish Funders must be administrated by a Swedish organisation, i.e. they need to be a Swedish legal entity with a Swedish organisation registration number.

Universities, research institutes and non-profit legal entities as well as public bodies may receive funding of up to 100 % of their eligible costs, provided that the project is part of their non-economic activities.

First payment from Swedish Funders will be administrated from the earliest January 2027.

Eligible applicants

The main applicant and participating researchers must hold a doctoral degree by the closing date of the call.

National requirement

Co-creation and stakeholder involvement is important for the FutureFoodS partnership and for the success of this call.

Swedish applicants are expected to involve stakeholders, e.g. food industry actors, civils society organisations, national/regional authorities or municipalities, or integrate stakeholder perspectives in the Swedish part of the project. For example, stakeholders can have advisory roles or/and participate in planning and workshops. Compensation to stakeholders having such advisory roles in the project may be included in the budget as running costs (purchased services and travel expenses).

Eligible Costs

Formas standard eligibility criteria apply. Please see Formas' general instructions: [How it works - Formas](#) VAT should not be included in the budget figure.

Our funding may only go to certain types of costs. These are called eligible costs. In this call for proposals these types of costs are eligible:

- Personnel costs: Salaries, social security contributions and other personnel costs
- Equipment, land and buildings: Instruments, equipment and rent for premises other than regular business premises
- Consulting and licensing costs: Consulting services, knowledge and patents purchased or used under license from an external actor. Consultancy costs should not exceed 20% of a project part's budget
- Other direct costs: For example materials, stock items and travel necessary to carry out the project
- Indirect costs (overhead, OH): Costs that are not incurred as an immediate consequence of but can be related to the project, for example regular premises and cleaning. Universities and colleges may budget for indirect costs according to their usual full cost principle. It is the applicant's responsibility to ensure that the correct level for indirect costs is applied in the application.

For more detailed information on which costs we can finance, see the instruction on eligible costs below.

Please note that all costs must be submitted in Euros (EUR) in the international submission platform for both pre- and full proposals, and in Swedish crowns (SEK) in the Swedish submission platform(s). Use the historic exchange rate (EUR to SEK) from the date when the first step for pre-proposals close. The exchange rate to be used must come from Sveriges Riksbank ([Sök räntor och valutakurser | Sveriges Riksbank](#))

Additional information

All scientific publications resulting from projects funded by Formas must be published using immediate open access (OA).

Swedish applicants who have submitted a pre-proposal to the FutureFoodS Partnership (the international submission platform) and are invited to submit a full proposal at the second stage, will be contacted by Formas for further information on how to register their full proposals with Formas' system Prisma.

Swedish applicants in the same project consortium must apply in Prisma under one single project application after they have been invited (full proposal). If two or more Swedish partners participate in the same application one of them will act as the Swedish coordinator in relation to Formas (even if the international project is not coordinated by a Swedish organisation).

Swedish consortia shall abide by this designated funder's terms and conditions for grants:

- [Terms and Conditions for Grants - Formas](#)

Swedish Funders follow the principle of public access to official records according to Swedish law. Swedish Funders performs a confidentiality review before releasing any documents. For more detailed information see: [The principle of public access to official documents - Government.se](#)

Any additional national/regional rules or documents or information:

Terms and conditions

Applicants (individuals) need to follow the rules and regulations of the transnational call and of the national requirements.

Eligible applicants are from Dutch universities, universities of applied sciences, research institutions and public bodies domiciled in The Netherlands.

Eligible non-profit organizations, SME's and others must be registered and well established in the Netherlands. These organizations may apply and are advised to contact the National Contact Person of the Ministry to approve eligibility and to get further terms and conditions.

An application for funding from the Ministry has a single main applicant. This main applicant is from a research institute and responsible for the project- and financial management of all co-applicants/project members for whom funding is requested. Co-applicants within an application for the Ministry funding are then allowed.

An applicant may only request funding of the Ministry for one project (part of a European Consortium) in this Call of proposals.

The subsidy is coming from the Ministry of Agriculture, Fisheries, Food Security and Nature (LVVN). The following conditions apply:

1) For Wageningen Research (WR) and other TO2 institutes (research institutes for applied science):
The 'TO2-regulation' (<https://wetten.overheid.nl/BWBR0040605/2018-07-25>) and the tariff agreement under it apply.

2) For other research and knowledge dissemination organizations and universities:
De Kaderwet EZK- en LNV subsidies (<https://wetten.overheid.nl/BWBR0007919/2019-01-01/> - article 2a) applies.

Eligible costs are personnel costs for the performance of the project and direct costs such as materials, small scientific equipment, travelling expenses and other costs that can be justified as necessary to carry out the proposed activities. Project management can be maximum of 10% of the total project costs. Travel expenses can be maximum of 5% of the total project costs.

All co-applicants that are to receive the grant from the Ministry through the main applicant, are subject to the de-minimis regulation (Regulation (EU) no. 1407/2013 of the European Commission of 18 December 2013), except for research organizations. Based on the de-minimis regulation, co-applicants may receive a maximum of 300.000 € in government support over a period of three years. By completing the de-minimis statement, consortium partners declare that in the event of the award of a grant by the ministry, they will not exceed the de-minimis threshold. If a consortium partner finds that the de-minimis threshold will be exceeded with the grant from SIA (and other possible de-minimis aid), this consortium partner cannot receive funding from the ministry through the main applicant. The main applicant must take this into account when drawing up the application budget, and must therefore check for each consortium partner that will be involved as a co-applicant whether the subsidy amount applied for does not exceed the de-minimis threshold. The de-minimis statement, completed separately by each consortium partner, forms part of the full proposal.”

In case a co-applicant is a company involved in primary agricultural production this agriculture the following de-minimis regulation applies: <https://eur-lex.europa.eu/legal-content/EN/TXT/?uri=CELEX%3A32013R1408>

In case a co-applicant is a company involved in de primary fishery- and aquaculture sector the following de-minimis regulation applies: <https://eur-lex.europa.eu/legal-content/NL/TXT/HTML/?uri=CELEX:02014R0717-20231025>

In-kind contribution

A minimum in-kind contribution of 10% is required. The in-kind contribution may be delivered by the research institutes of its partners. The in-kind contribution may exist of either personnel or material costs. Do not hesitate to contact the national contact person of the ministry in case of questions.

Once proposals are selected for funding, the consortia will be notified by the FutureFoodS Call Office and subsequently, the national granting process will be initiated by the Ministry.

The proposed project must be beneficial to the national challenges and must have a clear added value to the national programme.

The Dutch participation should be in line with the knowledge and innovation agenda KIA Landbouw, Water, Voedsel (<https://kia-landbouwwatervoedsel.nl>) and other relevant policies on future foodsystems.

Please note: researchers based in the Netherlands who are interested to apply for funding in this Call for proposals, are recommended to carefully read the national annexes of the three participating Dutch funding organisations: the Dutch Research Council (NWO), Taskforce for Applied Research SIA, and the Ministry of Agriculture, Fisheries, Food Security and Nature (LVVN). Please do not hesitate to contact the relevant contact points in case of questions.

Following partners are eligible for funding:						
Universities	Research institutes	Non-profit organizations	Consumer / citizens	Civil society representatives	Private companies	Other
Yes	Yes	No	No	No	No	No
Any additional national/regional rules or documents or information:						

Please note: Researchers based in the Kingdom of the Netherlands who are interested to apply for funding in this Call for proposals, are recommended to carefully read the national annexes for the three participating Dutch funders: the Dutch Research Council (NWO), Taskforce for Applied Research SIA, and the Ministry of Agriculture, Fisheries, Food Security and Nature (LVVN). An individual applicant for NWO can only receive funding from one Dutch funding organisation. However, within the transnational application, an application for NWO funding can be combined with applications to SIA or LVVN for this Call for proposals. Please contact the relevant contact points in case of questions or to verify which Dutch funder one should apply to.

Who may apply?

An application for funding from NWO may consider the following roles:

- National main applicant (mandatory): the applicant who leads the application to NWO and is the foreseen national project leader, in case a project is granted.
- National co-applicant (optional): national applicants in addition to the national main applicant with an active role and responsibility in realising the project and requesting funding from NWO.

National main applicants

Researchers may submit an application if they have a tenured position (and therefore a paid position for an indefinite period) or a tenure track agreement at one of the following research organisations:

- universities as referred to in Article 1.8 paragraph 1, points a), b), and h) of the [Higher Education and Scientific Research Act](#) and universities listed in the [Policy Rules for Universities located in the Kingdom of the Netherlands](#);
- university medical centres by which is meant academic hospitals as referred to in Article 1.13 paragraph 1 of the Higher Education and Scientific Research Act;
- institutes affiliated to the Royal Netherlands Academy of Arts and Sciences (KNAW) or NWO;
- Netherlands Cancer Institute;
- the Max Planck Institute for Psycholinguistics in Nijmegen;
- Naturalis Biodiversity Center;
- Advanced Research Centre for NanoLithography (ARCNL);
- Princess Máxima Center.

Persons with a zero-hour employment agreement or with a contract for a limited period of time (other than a tenure track appointment) may not submit a proposal.

It could be the case that the applicant's tenure track agreement ends before the intended completion date of the project for which funding is applied for, or that before that date, the applicant's tenured contract ends due to the applicant reaching retirement age. In that case, the researcher applicant needs to include a statement from their employer in which the organisation concerned guarantees that the project and all project members for whom funding has been requested will receive adequate supervision for the full duration of the project. Such a statement should be submitted in the full proposal stage.

Applicants with a part-time contract should guarantee adequate supervision of the project and all project members for whom funding is requested.

National co-applicants

Researchers interested to apply as a national co-applicant, i.e. together with a national main applicant, may submit as a national co-applicant if they have a tenured position (and therefore a paid position for an indefinite period) or a tenure track agreement at one of the research organisations listed under 'National main applicants' or at other research organisations as referred to in Article 1.1, paragraph 4 of the NWO Grant Rules 2024 that meet the following cumulative conditions:

- be established in the Netherlands;
- be a foundation, association or an organisation or body established and governed by public law (in Dutch: *publiekrechtelijke rechtspersoon*) (all other legal forms, including private and public limited companies, are excluded);
- have as its primary goal the independent conduct of its own fundamental research, industrial research or experimental development independently or widely disseminating the results of those activities through teaching, publications or knowledge transfer;
- be able to state that the organisation keeps separate accounts with regard to economic/non-economic activities and that undertakings with decisive influence on the organisation do not enjoy preferential access to the organisation's results.

Please note: Prior to the submission of an application, NWO assesses on the basis of the above-mentioned conditions whether an organisation complies with Article 1.1, paragraph 4 of the NWO Grant Rules and may therefore participate as a national co-applicant. NWO performs this assessment to preclude the granting of prohibited state aid.

The organisation of the prospective national co-applicant must provide the following documents no less than 10 working days prior to the submission deadline for pre-proposals (meaning no later than 28 January 2026 before 13:00:00 CET) by email to futurefoods@nwo.nl:

- a recent extract from the Netherlands Chamber of Commerce;
- the deed of incorporation or current articles of association;
- the latest available annual accounts accompanied by an audit statement¹;
- the completed Declaration Research organisation, available on the funding page of this Call for proposals on the NWO website.

Other relevant documentation may be added. NWO may request additional information if the above documents are not sufficiently conclusive to determine whether the organisation may act as a co-applicant.

¹ Organisations that are not legally obliged to have their annual accounts audited do not need to provide such an auditor's statement. They must however be able to demonstrate that this legal requirement is not applicable to the organisation concerned.

If the organisation of the intended national co-applicant within another NWO programme has been assessed against these conditions, please contact NWO in good time via the above email address to determine whether this organisation should be reassessed.

If the organisation of the prospective national co-applicant does not submit the necessary documents for this assessment in time, NWO cannot accept the organisation as a national co-applicant. If the addition of new co-applicants to the consortium is allowed in the proposal and these new co-applicants are not affiliated to a research organisation listed above, these conditions will also be checked for this organisation/these organisations. The documents listed above as a requirement in the pre-proposal must then be submitted by email no less than 10 working days before the submission deadline for full proposals (meaning no later than 13 July 2026 before 13:00:00 CEST).

Additional eligibility criteria

An application for NWO funding has one national main applicant, responsible for scientific and financial management. National co-applicants within an application for NWO funding are allowed (see 'Who may apply').

- A researcher may only request NWO funding for one project (part of a European consortium) in this Call for proposals, either as main applicant or co-applicant within an application for NWO funding.
- Researchers employed at a university in the Kingdom of the Netherlands, umc or a research organisation, as referred to in Article 1.1, first paragraph, subparagraphs c to h of the NWO Grant Rules 2024 may not apply for a scientific or post-doc position for themselves.

Eligible costs

Available budget modules are as follows:

Personnel:

- Personnel at a university in the Kingdom of the Netherlands, umc or a research organisation, as referred to in Article 1.1, first paragraph, subparagraphs c to h of the NWO Grant Rules 2024:
 - Postdoc: at least 1 position, for at least 12 months, for at least 0.5 fte, according to UNL or NFU rates, a benchfee is available;
 - Non-scientific personnel (NWP): according to UNL or NFU rates
 - Research leave: max. 5% of the grant amount, according to UNL or NFU rates.
- For national co-applicants: personnel of universities of applied sciences and other research organisations as referred to in Article 1.1, paragraph 4 of the NWO Grant Rules: according to HOT rates.
- Students: according to the usual internship fee or HOT rates, may be added to material costs.

Material: For project-specific material costs, up to 25% of the grant amount. Subsequently, up to 50% of the material budget can be used for work by third parties.

Knowledge utilisation²: For activities that promote the use of knowledge from the research following the Impact Plan approach, mandatory 5-20% of the grant amount.

Projectmanagement: Up to 5% of the grant amount.

Please note the following:

- PhD positions cannot be applied for in this Call for proposals, due to the maximum project duration of 3 years.
- NWO funds project-related costs. Therefore overhead costs are not eligible for NWO funding.

A more detailed explanation of the budget modules and eligible costs can be found on the funding page on the NWO website.

It is recommended to use the NWO budget template in the pre-proposal stage to confirm eligibility of budget items. For full proposals, it is mandatory to submit the NWO budget form for the funding requested at NWO at the time of the transnational deadline. Please submit it to futurefoods@nwo.nl.

Further information

Once proposals are selected for funding, the consortia will be notified by the FutureFoodS Call Office and subsequently, the national granting process will be initiated by NWO.

The [NWO Grant Rules 2024](#) and the [Agreement on the Payment of Costs for Scientific Research](#) are applicable. Any arrangements made regarding the part of the project's budget covered by the grant from NWO, for instance in a Consortium Agreement, must comply with the NWO Grant Rules 2024 and the European legislation on state aid.

As stipulated in the NWO Grant Rules, Article 3.2, paragraph 2, the project cannot start until the conditions set out in the grant award decision regarding the start of the project are met. Please note, these conditions will include a signed Consortium agreement by all partners in the transnational project.

Under the Dutch General Administrative Law Act, any interested party has the right to lodge an objection to the decision taken by NWO within six weeks of the date of the decision letter. Further information about the objections procedure can be found on the NWO website: [Lodging an objection | NWO](#).

NWO will, if necessary, apply a one-off indexation of personnel costs when awarding the grant. The UNL/NFU/HOT rate at the time of the decision date applies and the date on which the rates take effect is used for this purpose.

² All activities applied for under this budget module must fit within the definition of "Knowledge Transfer Activities" used by the European Commission in the Framework for State Aid for Research, Development and Innovation (OJEU 2022, C 414).

Submission of financial and scientific reports at national level is required in accordance with the rules of NWO. Granted consortia will be informed in due time.

Eligibility of a partner as a beneficiary institution							

Only Universities of applied sciences (UAS) as referred to in Article 1.8 paragraph 1, and point g) of the Annex to the Dutch Higher Education and Research Act (*Wet op het hoger onderwijs en wetenschappelijk onderzoek*, WHW) are eligible as *main applicant*. Main applicants are required to submit a mandatory SIA budget form in the Full Proposal stage, as well as a *de-minimis* form for each partner receiving funding if applicable. The budget form and the *de-minimis* form will be made available on the call-page of Regieorgaan SIA www.regieorgaan-sia.nl/ffs before the full proposal phase. All other consortium members other than UAS are cooperation partners and can only participate in cooperation with the main applicant.

For Dutch research organisations other than UAS, please refer to the annex provided by NWO or the ministry of Agriculture, Fisheries, Food Security and Nature (LVVN).

Additional eligibility criteria for SIA

The board of the UAS has to be informed about the submission of this proposal and needs to agree with its content.

At the full proposal phase, it is required to attach a SIA financial details form to the application (similar to RAAK-Publiek). This form will be available via www.regieorgaan-sia.nl/ffs.

Participation of a Dutch partner from practice as a cooperation partner in the transnational consortium is mandatory.

As a researcher, you may only be involved as contact person for your University of Applied Sciences once in this Call for proposals.

All cooperation partners that are to receive the grant from SIA through the main applicant, are subject to the *de-minimis* Regulation (EU) no. 2023/2831 of the European Commission of 13 December 2023), except for research organisations. Based on the *de-minimis* regulation, cooperation partners may receive a maximum of €300,000 in government support over a period of three years, except for some sectors which may have other thresholds. By completing the *de-minimis* statement, cooperation partners declare that in the event of the award of a grant by SIA, they will not exceed the *de-minimis* threshold. If a cooperation partner finds that the *de-minimis* threshold will be exceeded with the grant from SIA (and other possible *de-minimis* aid), this cooperation partner cannot receive funding from SIA through the main applicant. The main applicant must take this into account when drawing up the application budget, and must therefore check for each cooperation partner that will be involved as a co-applicant whether the subsidy amount applied for does not exceed the *de-minimis* threshold. The *de-minimis* statement, completed separately by each cooperation partner, forms part of the full proposal.

A minimum of 10% in-kind contribution of the requested subsidy, by the UAS or its partners, is required.

Eligible costs

Funding for Universities of Applied Sciences: no limit on number of positions.

Cooperation partners like SMEs, public authorities and/or NGOs based in the Netherlands may be funded within the project. Maximum funding percentage for these partners is 50% of their costs. In total the maximum allowed funding for cooperation partners, excluding the universities of applied sciences, is 25% of the funding by SIA.

Personnel

Funding for Universities of Applied Sciences: rates based on the most recent version of Handleiding Overheidstarieven (HOT), Table 2 under 2.2 “Gemiddelde totale kosten per salarisschaal”, column “Uurtarief productieve uren, ex btw”, costs for the participation of students and material costs. The most recent HOT tariffs must be applied for the entire duration of the project. Higher tariffs than HOT are not allowed.

For other educational institutions, TO2 institutions, governments and other government-funded institutions, the same rates apply as for universities of applied sciences.

For organisations that do not use a comparable collective agreement (cao), the following salary scales from HOT table 2 under 2.2, columns productive hours apply. Project assistant scale 6. Junior scale 10. Medior scale 12. Senior scale 13. Director scale 16.

Participation of students

It is allowed for students, connected to the university of applied sciences, to work within the project. If the students contribute as part of their curriculum, the rate according to the usual internship fee of the college or university applies.

For students employed as student assistants, the rate according to Handbook of Government Rates (HOT), Table 2 under 2.2 “Gemiddelde totale kosten per salarisschaal”, column “Uurtarief productieve uren, ex btw”, scale 1, applies.

Material Costs

Material costs include consumables, test setups, open access publications, hiring third parties, citizen science, (inter)national travel and accommodation costs (economy class), access to major (inter)national facilities and costs for permits, software licenses, conferences, fieldwork, guest researchers and data management.

Equipment purchases (investments) are not included in project costs. For equipment, only depreciation costs attributable to the project can be claimed. Depreciation rates are calculated based on the historical purchase price excluding financing costs, a straight-line depreciation method and an actual useful life. Inclusion of costs for use of equipment older than five years is therefore not possible.

Not eligible are costs that fall under organizational infrastructure and overhead, such as a fully functioning workstation, office automation, depreciation other than those mentioned above, housing, insurance, administration and provisions for archiving.

In-kind contribution

A minimum in-kind contribution of 10% is required. The in-kind contribution may be delivered by the UAS or its Dutch cooperation partners. The in-kind contribution may exist of either personnel or material costs.

Additional information

The NWO Grant Rules 2024 are applicable to the part of the project’s budget covered by Regieorgaan SIA.

Under the Dutch General Administrative Law Act, any interested party has the right to lodge an objection to the decision taken by Regieorgaan SIA, within six weeks of the date of the decision letter. Further information about the objections procedure can be found on the SIA website:

<https://regieorgaan-sia.nl/financiering/bezwaar-maken/>

Regieorgaan SIA will, if necessary, apply a one-off indexation of personnel costs when awarding the grant. The HOT rate at the time of the decision date applies and the date on which the rates take effect is used for this purpose.

Do not hesitate to contact the national contact person in case of questions.
