Outline

ITEM	AGENDA	SPEAKER
1	**Introduction to FutureFoodS Partnership and the co-funded calls**	Nikola Hassan
2	**The Food System Approach**	Nikola Hassan
3	**Scope, topics and project types**	Nikola Hassan
4	**Overview of the call process**	Emilie Gätje
5	**Submission platform: how to use it**	Frank Hensgen
6	**Wrap up**	Frank Hensgen

We will leave time for Q&A after each speaker! Please use SLIDO!

FutureFoodS

The European partnership for a sustainable Future of Food Systems

1. Introduction to FutureFoodS Partnership and the co-funded calls

- FutureFoodS - European partnership for a sustainable Future of Food Systems
https://www.futurefoodspartnership.eu/

- 83 partners from 29 countries
(funding organisations, research performers)

- Envisioned runtime mid 2024-2034

- Variety of activities
→ 6 Co-funded calls planned

Coord: ANR, the French National Research Agency

Co-coord: BLE, the German Federal Office for Agriculture and Food

Co-funded by the European Union

RÉPUBLIQUE FRANÇAISE
Liberté
Égalité
Fraternité

anr® agence nationale de la recherche

Bundesanstalt für Landwirtschaft und Ernährung

1. Introduction to FutureFoodS Partnership and the co-funded calls

- Joint transnational funding scheme, co-funded by the European Commission
European Commission

FutureFoodS Partnership

Project consortia

funds

FutureFoodS

33 Funding Organisations

Fund on national/regional basis

# 2. The Food System Approach

Halberg, Westhoek, 2019

2. The Food System Approach

- ## What is the Food System and why?

"a system that *embraces all elements and activities* that relate to production, processing, distribution and marketing, preparation and consumption of food, and acknowledges the *interactions* between natural resources/ecosystems services, primary food, food processing, packaging, logistics, marketing, retail, food services, consumption and waste management/recycling and the *many feedback loops* between them, which together defines the degree of complexity"

- ## A systems approach offers a holistic view on complex problems and acknowledges interdependencies within the systems

Halberg, Westhoek, 2019

2. The Food System Approach

→ What does this mean in practice for your proposal?
Guiding elements for FutureFoodS projects

✓ transformative perspective
(solution- and impact-driven R&I; context setting, theory of change)

✓ Inter- and transdisciplinarity
(various disciplines and fields, project specific)

✓ Multi-stakeholder engagement
(diversity, relevance/ applicability, quadruple helix)

✓ Sustainability
(3 dimensions, project specific, towards sustainable Food Systems)

Figure: Broerse, 2018 (modified)
2. The Food System Approach

The guiding elements:

- affect the composition of consortia and the R&I content

- will be evaluated

- will be followed-up in the runtime of the projects

- direct implications on the <u>proposal structure</u>

Please consider in your proposal:

Statement Food System Approach

Project description > Impact Plan (based on Theory of Change)

2. The Food System Approach

Project description > Impact Plan (based on Theory of Change)

ANNEX A

- Annex A provides background information (impact plan approach)

- Impact plan has 2 parts:
    1. Problem and context analysis *(pre-proposal)*
    2. Impact Plan: including impact pathway, strategic planning with regard to consortium and interactions *(full-proposal)*

- Structure of the Impact Plan is proposed in the Proposal templates with pre-given subheadings (Annex C and D)

Project description (following an impact plan)

1. Problem and context analysis:

this part shall reflect on the impact-driven achievements that are relevant and necessary to address the underlying causes and close existing knowledge gaps. The following subheadings are not mandatory but recommended:

— Problem analysis (main aim, underlying causes and challenges, stakeholders, actors and factors determining the context, knowledge gaps)

— Assumptions (underlying hypothesis in relation to the state-of-the art and novelty)

— Relevance (relation to the theme and aims of the call, transnational added value)

— Intended Impact (ambitions, societal, environmental, industrial, policy impact etc.)

Project description (followi~~n~~)

Full-proposal only!

2. Impact Plan

Impact pathway: is the visualisation of the change process and should specify the expected project outcomes, outputs and subsequent assumptions. The following subheadings are not mandatory but recommended:

- Outcomes (changes in behaviour, relationships, actions and activities of stakeholders resulting from the exchange of knowledge; who, what, where, when)

- Output (knowledge and insights resulting directly from the research/ expected results and which are necessary to deliver the outcomes described earlier)

- Assumptions in Impact pathway

Consortium and interactions: provide information about who will produce knowledge and how using a strategic activity planning. Take care not to repeat the work package description as this is provided separately under Research Plan (see below)**.** The following subheadings are not mandatory but recommended:

- Consortium (description of the collaboration in the consortium, co-design and co-creation, previous activities, complementarity and roles)

- Interactions (which productive interactions, such as stakeholder engagement, communication, monitoring, capacity strengthening etc. will lead to knowledge development and validation in line with the impact pathway)

- Project governance and management (including also communication and monitoring)

- Risk management and contingency planning

Find more info and guidance:

- https://www.nwo.nl/en/impact-plan-approach

- Free online workshop for applicants:
  https://impact.nwo.nl/en/working-with-an-impact-plan

Q&A

3. Scope, Topics and Project types

Objectives of the Partnership

Fund transnational teams that develop new knowledge and innovative solutions, unlocking Food Systems transformation across Europe by 2050

- environmentally friendly,
- socially secure and fair,
- economically viable,
- healthy and safe food.

What is within our scope?

- Change the way we **eat**
- Change the way we **process** and supply food
- Change the way we **connect** with food systems
- Change the way we **govern** food systems

Food system approach centered around <u>post-harvest</u> activities

Complementary to other partnerships

eat

process

connect

govern

Scope – key limitations

Projects within the Partnership shall focus on post-harvest/production

Primary production(on land and sea/water), such as growing food, agricultural production and other specific aspects related to it, as well as diseases related to nutrition and lifestyle are not in focus in this partnership.

These aspects are covered in other Horizon Europe partnerships.

However, dependencies and impacts related to these aspects may adressed within the scope of the call, if embracing a food systems approach.

Topics

Accelerating Food Sustainability - through Household Dietary Shifts, Trust and Transparency, and Innovations in Circular Food Processing Systems

FutureFoodS 2. Call – 3 Topics

1. Domestic food practices enhancing sustainable and healthy diets

New knowledge and solutions for shifting dietary habits towards sustainable healthy food choices at household level, thereby respecting the diversity of consumers and their needs. This topic aims to help reconnect individuals´ consumption behaviour with society´s health and environmental concerns.

2. Towards diverse, sustainable and circular food processing systems

New systemic approaches for providing fair, carbon-neutral, environmentally low-impact, safe, healthy, near-zero-waste and diversified food products and diets. This call topic combines aspects of resource-efficiency, circularity, resilience and technology with the needs of consumers and producers.

3. Trust and transparency in sustainable food systems

New insights on measures, frameworks and standards that increase trust and transparency in food systems and for food system actors. Central to the call topic is the role of quality signals and information shaping the digital and physical food environments where dietary choices are made.

Project types

- 2 Project types: **Exploratory Research Project** or **Accelerating Innovation Project**

- Both types can be applied to all 3 topics

- Both types need to follow the systems approach and guiding elements

- The project types will be evaluated separately

- Be aware that not all funders support all topics or all project types!!!

Project types

	Exploratory Research	**Accelerating Innovation**
Concept	Basic and/ or applied research focused on knowledge co-creation, mainly researcher-led (comparable to EC- RIA)	Focused to translating scientific knowledge into new practices and smart solutions in industry, public sector or society, clear stakeholder commitment and collaboration with professional practice (comparable to EC- IA)
Foreseen impacts	Develop the state of the art of scientific knowledge laying the ground for an accelerated food system transformation	Increase and develop the adoption and uptake of new sustainable food practices, services, products and processes across Europe
Expected outputs	Classic academic outputs such as articles, books, conference articles, but also open-source datasets, simulation tools, methodological guidelines, e-learning modules etc	Practical and smart solutions for societal issues. Prototypes and pilots, digital tools, business models, consumer acceptance analysis, data analysis frameworks, patents, manufacturing techniques, AI models, regulatory sandboxes etc
Concretion level	Ideas development and implementing proof of concept	Testing and validating prototypes or pilots that are ready for practical application in real life settings
TRL scale (if applicable)	3-5	6-8

Q&A

4. Overview of the call process

- Participating countries/ FO
- Process and timeline
- General eligibility criteria
- National requirements
- Evaluation criteria
- Brief overview of Call Docs (Announcement + Annexes)

Participating countries/Funding Organisations

- This call brings together 33 funding organisations (FO) from 20 countries and the European Commission, jointly committing up to 39 million Euros to support innovative research and development projects focused on creating a sustainable food future.

- The Funding Organisations participating in the co-funded call are listed in **Table 3 and Annex B** of Call Announcement**.**

Process and timeline

Eligibility Check - general eligibility criteria

Call Opening
3 Dec. 2025

Pre-proposal Sub-mission (deadline)
11 Feb 2026

Eligibility Check
General and national/regional

Evaluation by IEP
Remotely and Evaluation meeting

Call board meeting
Pre-proposal selection for ful-proposal stage

Feedback to applicants
Early May 2026
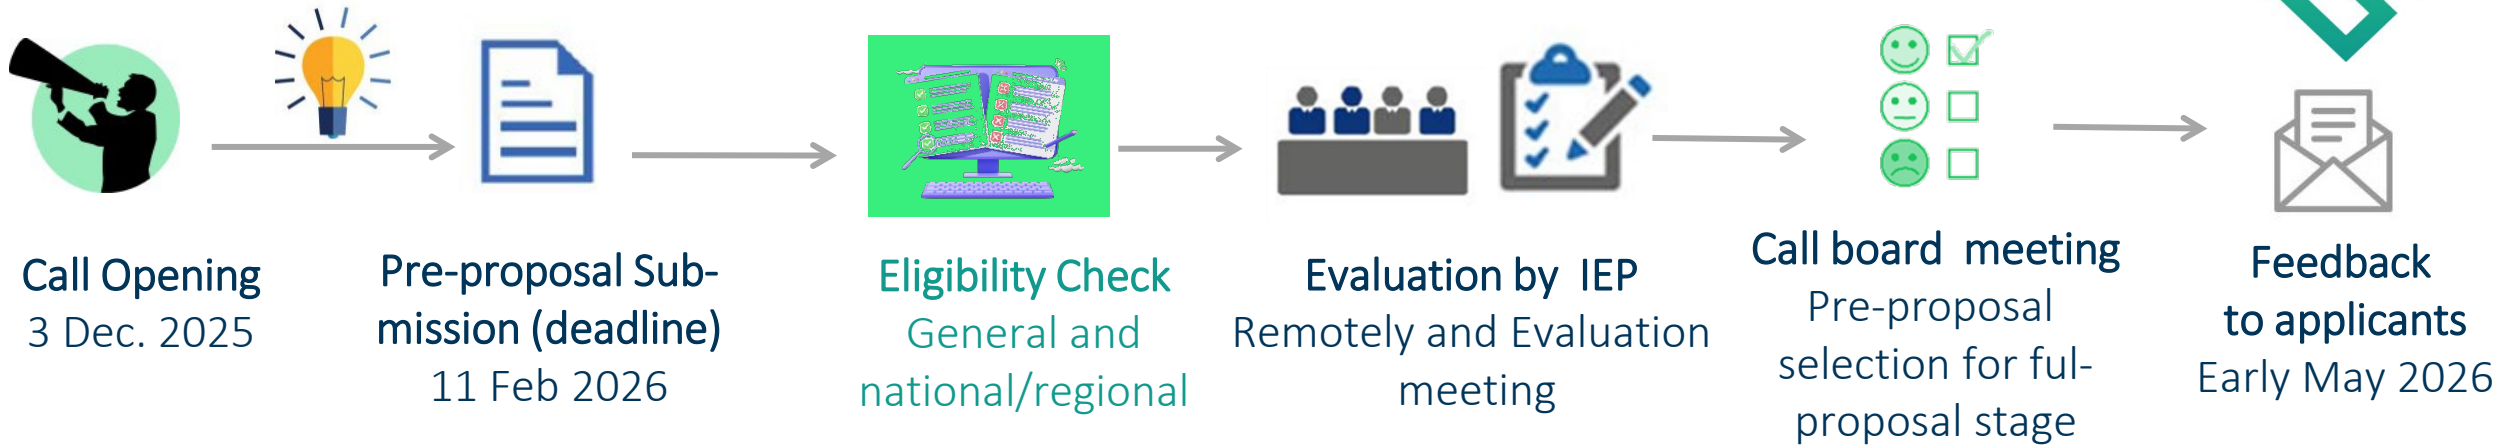

- Proposals must be complete but respect **limits** (e.g. page limits) must be written in **English**; be submitted **by the deadline** via the FutureFoodS **submission website**.
- The project duration must not exceed 36 months.
- Consortia must include **at least three eligible partners** requesting funding from **three different FutureFoodS member countries** who contribute funds to the Call. + Project Coordinator from eligible organisation (applying for funding)

Eligibility Check - general eligibility criteria II

- Consortia need to be balanced: A single country shall not exceed 60% (or more) of the total number of person months allocated to the project.
- An individual affiliated to several organisations cannot request funding from more than one FO in one proposal.
- The same person cannot act as a coordinator for more than one proposal;
- The prior submission of a pre-proposal is a requirement for the submission of a full-proposal.
- Applicants must complete an ethics self-assessment as part of the application;
- Self-funding: partners can join project consortia with their own resources and/ or can bring their own funding (e.g. in the case eligibility to receive funding is not met or due to other reasons). Self-funded partners will not be subject to national/regional eligibility assessments → letter of commitment (full proposal).

Conditions and requirements
National/Regional Rules
Which funding organisation can fund what? Annex I

- What topics? Which project type(s)?

- What budget per project?

- Who can apply for funding (research institutions, SMEs…)?

- Are there additional national/regional regulations?

- Any exceptions for the funding of the research topics?

- **Consult your National/Regional Contact Point:**
  Details are settled by each funding organisation

- **Note: In Case one partner is not eligible → The entire proposal will be rejected**

IMPORTANT

Evaluation of (pre-)proposals

Call Opening
3 Dec. 2025

Pre-proposal Submission (deadline)
11 Feb. 2026

Eligibility Check
General and national/regional

Evaluation by IEP
Remotely and Evaluation meeting

Funders meeting
Pre-proposal selection for full-proposal stage

Feedback to applicants
Early May 2026
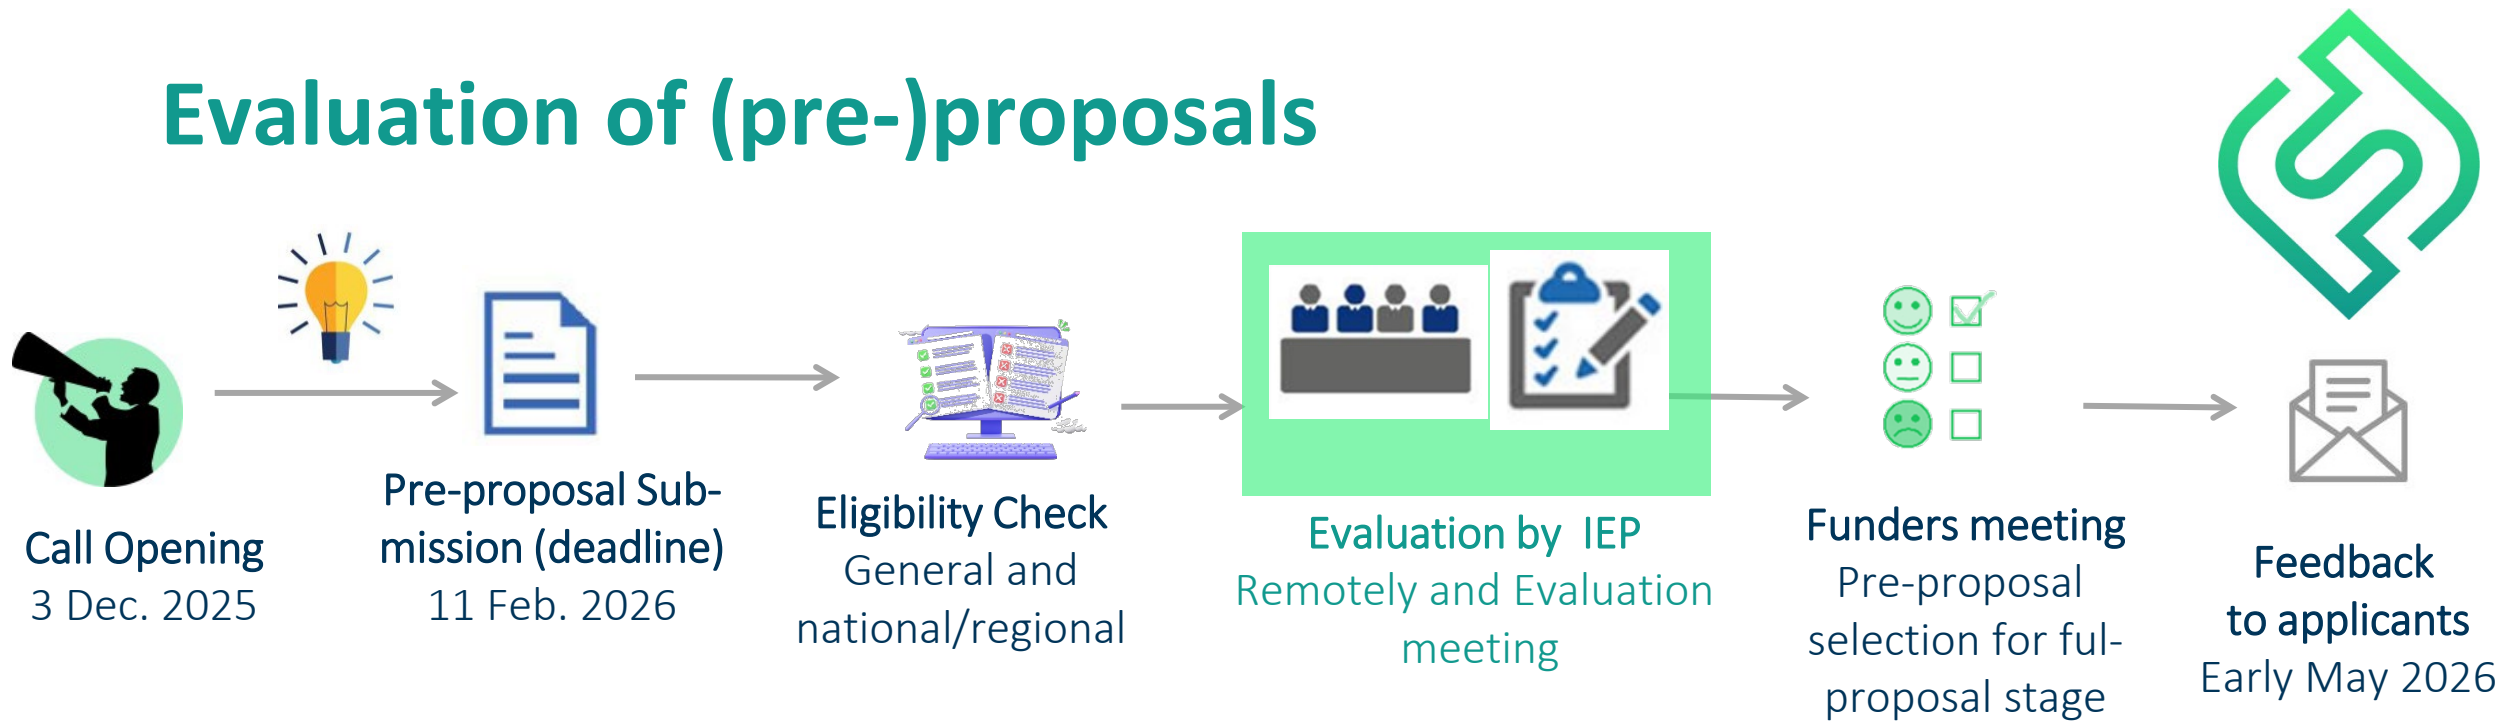

Evaluation by three independent experts per proposal

CRITERIA

- Excellence
- Impact
- Quality and efficiency of the implementation (full-proposal only)

For both pre- and full-proposal evaluation, each criterion will be scored out of five (no half marks allowed). The threshold for each criterion is three out of five.

Any project with a lower score for one of the main criteria or an overall score lower than 10 at Step 2 (full-proposal) will not be considered for funding.

Call Documents - Call Announcement

European partnership for a sustainable Future of Food Systems

Second Joint Transnational Co-funded Call

FutureFoodS Call 2025

Accelerating Food Sustainability - through Household Dietary Shifts, Trust and Transparency, and Innovations in Circular Food Processing Systems

Version 01, 27 November 2025

Call launch: 03 December 2025

Submission platform: https://futurefoods.ptj.de

Webinar for applicants: 11 December 2025, 11:00-13:00 CET

Deadline for pre-proposals: 11 February 2026, 13:00:00 CET

Deadline for full-proposals: 27 July 2026, 13:00:00 CEST

Co-funded by the European Union

Co-funded by the European Union. Views and opinions expressed are however those of the author(s) only and do not necessarily reflect those of the European Union or European Research Executive Agency (REA). Neither the European Union nor the granting authority can be held responsible for them.

WELCOME

Welcome...to the submission platform of the 2nd FutureFoodS call for transnational research projects.

If you want to register as a coordinator for a transnational research project, please read the **Call Announcement** thoroughly (available for download in the "Call Documents" area). It will ascertain that your planned project fits to the aim of this call. Please note that some topics may not be fundable by some funding organisations. Therefore, please take a close look at the document and its annexes.

Non-coordinating partners of a project will be invited by the respective coordinator to enter their profile data and get access to the automatically generated project fact sheet, which contains the full information about the proposal.

If you have questions or any technical problems with your login or the platform, please don´t hesitate to contact the Call Office.

WELCOME

Welcome Coordinator

You are logged in as a coordinator! Please enter the information about your proposal. If you are logged in without actively working on the tool you will be logged out automatically after 24 minutes. In this case your last entered information will not get lost if you login once more by using the popup window which appears. Otherwise your last entered and not saved information will get lost!

After submitting your proposal you can always re-enter and change it until the deadline. The older version of your proposal will be replaced by submitting a new one. Only the latest version will be saved within the database!

Please note for character number limitation of text fields: The character count of MS-WORD (or similar) cannot be translated directly into the character count of this HTML-based tool!

Pre-proposals must be submitted electronically via this online submission tool by 11 February 2026, 13:00:00 CET.

You, as the project coordinator, should make sure to submit the proposal on time, as a strict call deadline is applied. After this deadline, the submission tool is closed.

You will be able to submit your data once all required information is provided. In your own interest: Please don´t wait until "the last minute" for your submission! And please make sure you really submit the proposal and do not forget to press the submit button!

We wish you success for your application!

5. Submission platform: How to submit a proposal?

At the left side you find the different pages of the submission tool, listed one after the other. In order to submit a proposal you need to go through all of them.

I would advise to start at the top and move downwards. You can invite your project partners via „Partners".

At the end, please do not forget to submit via „submission".

Project Description:

Please provide your project description,

How to?

ANNEX A

PROJECT DESCRIPTION

Please provide your project description following an Impact Plan Approach based on Theory of Change as described in Annex A. In the Pre-proposal, you are asked to perform a problem analysis.

In the Full proposal, you will need to provide a complete impact plan, including an impact pathway, productive interactions and strategic activity planning. The budget should take into account activities necessary to complete the outlined impact plan. Problem and context analysis: this part shall reflect on the impact-driven achievements that are relevant and necessary to address the underlying causes and close existing knowledge gaps. The following subheadings are not mandatory but recommended:

• Problem analysis (main aim, underlying causes and challenges, actors and factors determining the context, knowledge gaps)
• Assumptions (underlying hypothesis in relation to the state-of-the art and novelty)
• Relevance (relation to the theme and aims of the call, transnational added value)
• Intended impact (ambitions, societal, environmental, industrial, policy impact etc.)

The project should be in line with the requirements stated in the call text.

Ethics

The Ethical Assessment consists of **4 parts**. Each part has to be filled and has a dedicated sub-page.

The 4 parts are:

- Ethics Issues Table
- Security Issues Table
- Ethics Self-Assessment
- Security Self-Assessment

Please start by answering the questions in the Ethics Issues Table and the Security Issues Table, after this proceed to the Self-Assessment.

Please fill in the Ethics Self-Assessment and address potential concerns/issues. Proposals may be rejected for funding on ethical grounds if they do not comply with European and/or national/regional legislation.

Please also visit https://ec.europa.eu/info/funding-tenders/opportunities/docs/2021-2027/common/guidance/how-to-complete-your-ethics-self-assessment_en.pdf for ethics self-assessment.
